

SESSION SUMMARY

SESSION: [REDACTED] 011

METHODOLOGY: CRV/ERV (Solo)

29 JUL 88

1215-1300

OBJECTIVE: DETERMINE TRENDS OF IRANIAN BACKED ACTS OF TERRORISM
DURING 31 JULY 1988 THRU 8 AUGUST 1988.

RESULTS: DURING THIS TIME FRAME MOST OF IRAN'S ACTIVITY RELATING
TO RETALIATION AGAINST THE UNITED STATES CENTERS AROUND
THE GULF AREA. THERE EXISTS THE PROBABILITY THAT IRAN WILL
ATTEMPT TO SINK AN AMERICAN WARSHIP USING AN ANTI-SHIPING
MISSILE. AM UNABLE TO DETERMINE WHETHER THE MISSILE WILL BE
SURFACE-TO-SHIP, OR AIR-TO-SHIP. THERE IS A GOOD POSSIBILITY
THAT THIS MISSILE WILL MISS ITS INTENDED TARGET AND STRIKE
A TANKER.

ON OR ABOUT THE 2nd OF AUGUST THERE MAY BE AN INCREASED
DANGER TO AMERICAN INSTALLATIONS AND U.S. FORCES PERSONNEL
STATIONED NEAR THE WIESBADEN/FRANKFURT/MAINZ AREAS, AND
POSSIBLY MUNICH, IN GERMANY. INCREASED CAUTION AND SECURITY
ARE ADVISABLE.
